

I'm excited to be embarking on my second year at Eastern Mechanical Services as an Administrative Assistant. I have a diverse background that started in the plumbing and heating industry, where I worked as an Office Manager. This role not only sharpened my organizational skills but also gave me a deep understanding of business dynamics, which eventually guided me to Eastern Mechanical Services.

In my professional journey, I have honed my skills in managing office operations, ensuring that everything runs smoothly and efficiently. My transition to Eastern Mechanical Services felt like a natural progression, allowing me to bring my extensive experience into a new and dynamic environment.

Outside of the office, I find joy in spending time with my family, which includes my spouse, four children, and four grandchildren. Our home is shared with two cats and a dog, making it a lively and loving place.

When I'm not assisting at work or enjoying time with my family, you'll often find me exploring the world through travel or expressing my creativity on canvas through art. I'm also a culinary enthusiast at heart. I love cooking and believe in the magic of bringing people together through shared meals and memorable gatherings.

Combining professional dedication with personal warmth, I strive to be an invaluable asset to Eastern Mechanical Services and a cherished member of my community.
