

In 2019, I began my employment journey with Eastern Mechanical Services, a pivotal moment that offered me the chance to evolve within the dynamic realm of HVAC. Starting as a technician, I gained invaluable insights into the daily challenges faced by field personnel, equipping me to empathize and effectively manage situations in my current role as Service Manager.

What sets Eastern apart is its familial ambiance, ensuring that each workday is not only productive but also brimming with laughter and camaraderie. My bond with my wife Stephanie, which began when we were both 16, has been a source of immense joy. Together, we are blessed with three children - Ariana, Noah, and Sophia - and anticipate the arrival of another bundle of joy. Our household is further enlivened by the presence of Teddy, our golden retriever, and Titan, our corgi, who lend a helping paw in managing our lively brood.

Outside of work and family, I find solace in strumming the guitar and sharing moments of exhilaration with my children through skateboarding. The great outdoors beckons to me during leisure moments, offering respite and rejuvenation amidst nature's embrace.
