

John Huizinga is a seasoned professional in the mechanical services industry with a career spanning nearly four decades. Since 1985, he has been a vital part of Eastern Mechanical Services, Inc. in Danbury, CT, serving as Secretary, Project Manager, and Field Supervisor. His expertise extends to estimating on an as-needed basis, demonstrating his versatility and comprehensive understanding of the field.

Before his tenure at Eastern Mechanical Services, John honed his skills at Rowland Tompkins Corp. in Hawthorne, NY, from 1980 to 1985. There, he worked as an estimator and draftsman, responsible for complete mechanical, material, and labor take-offs, preparing and checking fabrication drawings for piping installations, and procuring vendor quotations. His career began as a plumbing apprentice, working with various contractors to install mechanical systems comprehensively.

John's educational background includes his studies at Traverse City High School from 1974 to 1978. Beyond his professional life, John is a certified scuba diver, an engine mechanic, and enjoys water skiing, hunting, and fishing.

A family man, John has been married to his wife Amye for 38 years, and together they have raised and homeschooled nine children. An accomplished cook, John excels in preparing domestic meats and venison, delighting his family with his culinary skills. Known for his playful banter, John brings joy to those around him.

In his professional capacity, John is an excellent mechanic and layout specialist for building trades mechanical systems, including ductwork, process piping, and plumbing systems. His thorough knowledge of building construction, from foundation to roof, and familiarity with building codes and standards, allows him to identify design deficiencies and avoid mistakes in execution.

John's faith plays a central role in his life. He loves the Lord and His word, and has been teaching it for many years. His ability to integrate his faith with his professional life is a testament to his character and dedication.
