

I began my journey with EMS back in 2011, and I must say, it's been a wonderful ride with what feels like my second family. Without a doubt, it's the best company I've ever had the pleasure of working for. Within the Service Department, I handle mostly behind-the-scenes administrative tasks, ensuring everything runs smoothly.

Danbury has always been home for me, where I've lived with my husband for almost 30 years now. Our pride and joy are our two daughters, both accomplished in their own rights. One of them recently tied the knot, and we've welcomed our son-in-law into our hearts with open arms. We're a family that thrives on travel – exploring new places is our passion! From the tropical bliss of the Bahamas to the historic charm of London, and from the vast landscapes of Australia to the cultural richness of Indonesia, Portugal, and Spain, we've had our fair share of adventures.

Back at home, our household is lively with the presence of three beloved dogs. Being an animal enthusiast myself, I have a knack for attracting unexpected encounters – like the time a wild black bear nearly took food from my hand during my childhood. Needless to say, my mother wasn't thrilled, and wisely advised me to step away before any mischief ensued.

In my leisure time, you'll find me indulging in a variety of hobbies, from the thrill of snowmobiling to the artistry of cooking, the freedom of motorcycle riding, and, of course, the pure joy of shopping (because what woman doesn't love a good shopping spree?). Winter holds a special place in my heart – there's something about the crisp, cool air that invigorates me like no other season can.
