

I've been a proud resident of CT my whole life, celebrating over 30 years of marriage and raising two wonderful adult children. Prior to embracing motherhood in 1998, I served as the Accounting Manager at a public manufacturing company in Brookfield. In 2004, I joined the EMS team, even though I initially felt uncertain about returning to the workforce. However, it's been one of the best decisions I've ever made. Working at EMS feels like being surrounded by family, and being based in Oxford is truly a dream come true.

Beyond the office, I find joy in various pursuits. Running has been a passion of mine, with the New York City Marathon being a standout moment in my running journey. I also have a deep love for travel, both abroad and within the US, with NYC holding a special place in my heart as my favorite city to explore. Reading and spending quality time with my loved ones are cherished activities for me. Above all, my faith is the cornerstone of my identity, shaping who I am and guiding me through life's adventures.
