Subject: RE: Request for References

To whom it may concern,

I have been asked to provide a work reference for Eastern Mechanical Services, Inc.

I have contracted with EMS for numerous projects and service calls over the past 10 years.

These jobs range from minor maintenance repairs to large scale projects, which including plumbing, fire protections, & HVAC and mechanical services.

I have become very close to both Ted & John Huizinga over the years and I value them more than just a contractor.

They have always made themselves available to us whenever we have needed them; regardless of the ridiculous time constraints we place them under at times.

I have always felt that they deemed my company as a premium customer and they have continued to treat us as such.

They have quality and competent field personnel and their office staff is also very responsive.

I would highly recommend contracting with Eastern Mechanical Services, Inc. for any of the services they provide.

Sincerely,
Stephen Moody
